

Building a statewide system of support to ensure people THRIVE in the face of adversity.

65.1% of Idaho adults have experienced at least one ACE, and nearly one in four (23.1%) have experienced four or more.

ACE data from 2018 BRFSS compared to 23 states

IDAHO

To shape and create an environment in Idaho that allows
all to thrive and be resilient in the face of adversity;
engage individuals, organizations, leaders, and communities.

What must we do to create a resilient Idaho?

1

Promote
Awareness,
Education, &
Advocacy

2

Build H.O.P.E.
(Healthy Outcomes
from Positive
Experiences)

3

Support Evidence-
Based Strategies
for Prevention and
Intervention

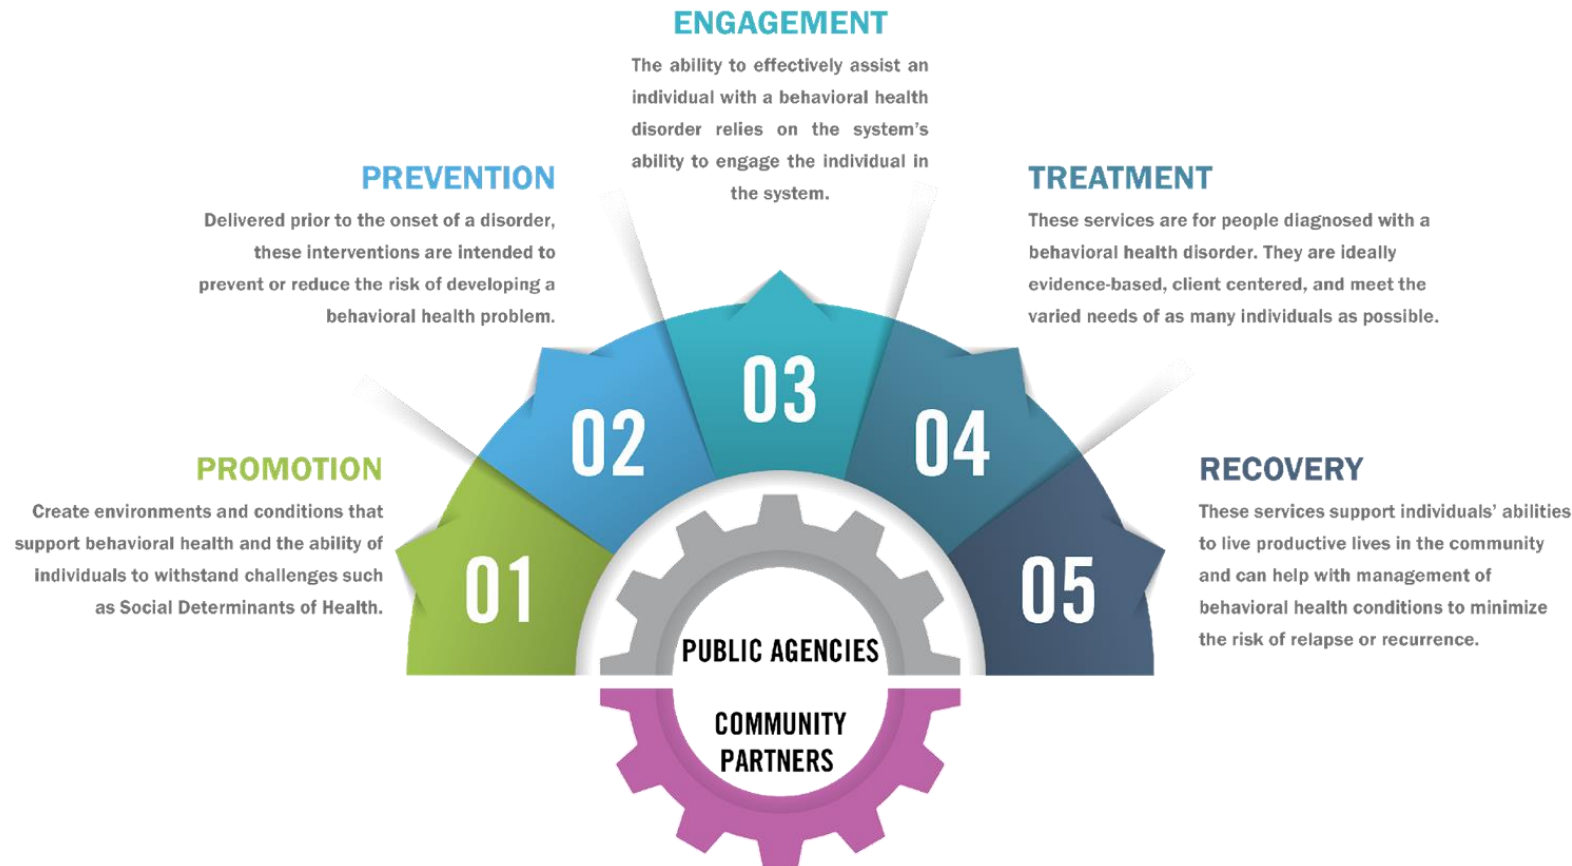

4

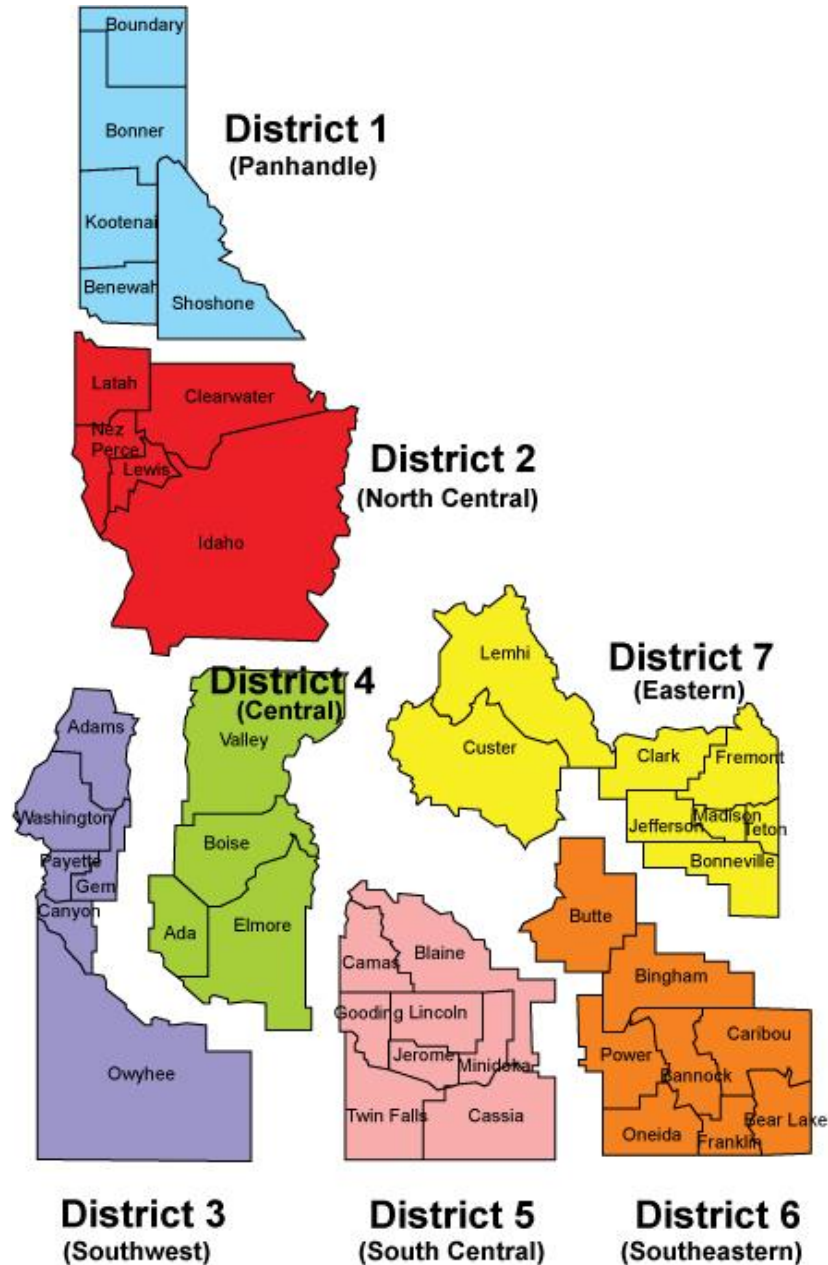

Develop and
Activate
Community
Partnerships

Idaho's Behavioral Health System Vision & Framework

Adults, children, youth and their families who live with mental illness and addiction receive the behavioral healthcare services they need when they need them.

Regional Collaborative Partners

- School Personnel
- Law Enforcement
- Juvenile Justice
- Library Personnel
- Non-profit Organizations
- Early Childhood Education
- Community members
- Advocacy groups

We are working with each Idaho region and are looking to activate community partnerships. Are you interested in joining us?

What's in it for you?

- First dibs on training opportunities that will re-energize and increase your own resilience.
- Funding for each regional effort to educate Idaho communities about the impacts of trauma and the benefits of resilience.
- Collaborate with other community organizations to make an impact for Idaho kids and the community beyond.
- Invitation to attend the first annual Idaho Resilience Project Retreat.

Will you join us?

We believe we are always stronger together. So we want to partner with you. Are you involved in a program or initiative that would help us coordinate in better serving Idaho?

WWW.IDAHORESILIENCEPROJECT.ORG

The League of Women Voters of Idaho and the Idaho Resilience Project are leading an effort to pass a concurrent resolution at the 2022 Session of the Idaho Legislature. The intent is to inform state officers, agencies, and employees about detrimental impacts of severe emotional trauma and other Adverse Childhood Experiences (ACEs) and inspire them to implement interventions and practices proven to be successful in developing resiliency in these survivors. What can be predicted can be prevented.

Will you join us in urging the Idaho Legislature to commit to pass the concurrent resolution to recognize the impact of ACEs and increase resilience for a healthier Idaho?
